# 3600 Series

Sleek and attractive, the 3600 is ANSI Grade 1 (500,000 cycles) and UL listed. With durable anodized finishes and high performance coatings on solid metal end caps, these devices are made for tough, high traffic conditions.

The slim, compact design enables mounting on narrow stile doors up to 4 feet wide and 9 feet tall.

### Series 3600 Concealed Vertical Rod Device Specification

Exit Device shall be First Choice Building Products series 3600 Concealed Vertical Rod Narrow Stile model utilizing a low profile touch bar projecting less than three inches (3") from the face of the door. The device shall use 3/8" steel vertical rods operating hardened steel latch bolts with the top latch engaging a stainless steel, top jamb mounted strike with rotational adjustment for proper door alignment. The bottom latch will be spring powered to ensure engagement with the threshold. The device shall be active the full length between door stiles and mount to the door using metal covers and end caps and require no more than 2" width of door stile. The device push bar and base shall be 6063, T-6 hardened aluminum in anodized finishes. The device shall be capable of operation by external key cylinder with Night Latch or Hold Back settings. The device shall be capable of disengagement by single point, quarter turn dogging.

# Accessories 3600 & 3700

### Your Answer for Exit Alarm Requirements

The AL37 Series alarm kits are designed to fit inside the push bar of the 3700 Rim exit device and the AL36 Series alarm kits fit into the 3600 CVR exit devices. The mechanism is designed for the rigorous requirements of exit hardware.

A powerful alarm emits a piercing, 105db, notification of unauthorized egress to protect persons and property. Automatic resetting means the door will remain protected at all times.

The sophisticated circuitry of the AL37 and AL36 provide up to 12 months of standby power or 100 alarm cycles from a standard 9v battery. Battery monitoring is constant and a low charge signal is provided to make it easy to maintain.

### (EL) Electric Latch Retraction

EL is now available on First Choice model 3790 rim devices and the 3690 vertical rod devices.

These devices are equipped with heavy duty, 24vDC solenoids suitable for high traffic conditions and capable of extended periods of activation.

### Interior Cylinder Dogging

The CD37 cylinder dogging function is available for the 3700 Rim exit devices and the CD36 is available for the 3600 CVR exit device. They eliminate the need for special hex keys to put the device into hold open mode.

The CD37 and CD36 accept standard Rim Type key cylinders which can be changed in the field. Just a quarter turn by key and the exit device is dogged open for unrestricted access.

Cylinders and collars are available for both clear and bronze finishes.

### Series L3 Levers

Utilizing a unique gear system these levers will operate with the 3700 Rim device and the 3600 CVR device.

Manual levers can be set for both Hold Back or Night Latch. All levers are designed for most common mortise cylinders. A security collar is included.

The electric levers are low voltage and can be operated by remote devices such as card readers, code key devices and remote mounted switches. Power requirements are 24v DC with easy hook up at the lever.

Available in painted finishes to match clear and dark bronze anodized aluminum.

The EL panic devices are partnered with either the PSEL3000 or PSEL1500 power supply. These power supplies are 115vAC and come equipped with terminal blocks for easy connection to input devices and are capable of supplying power to ancillary devices such as key pads, card readers, and automatic door activation switches.

### Series 300 Security Mullions

The ultimate security partner for both 3700 Rim and 3600 Vertical Rod devices, these removable mullions are made from steel-reinforced aluminum. A simple removal system for easy in, easy out convenience and matching anodized finishes make them the right choice for pair-of-doors applications.

Easily cut for a perfect field fit, these mullions come with heavy duty strikes and are available in sizes up to 9 feet.

Color matched security clips provide an added level of security overcoming the natural twisting of the door stile under pressure.

# 3700 Series

Packaging powerful security into a compact size, the 3700 can be mounted on doors with stiles as narrow as 1" and includes a 1" forged steel latch bolt. Non-handed and available for doors up to 4 feet, the 3700 is a convenient solution for demanding, busy traffic conditions.

These durable devices are ANSI Grade 1 (500,000 cycles) and UL Listed. Striking anodized finishes are accented with high performance coatings on solid metal end clips.

### Series 3700 Rim Latching Exit Device Specification

Exit Device shall be First Choice Building Products series 3700 Rim Latching Narrow Stile model utilizing a low profile touch bar projecting less than three inches (3") from the face of the door. The device shall use 1" hardened steel latch bolt engaging a frame mounted stainless steel roller strike. The device shall be active the full length between door stiles and mount to the door using metal covers and end caps and require no more than 2" width of door stile. The device push bar and base shall be 6063, T-6 hardened aluminum in anodized finishes. The device shall be capable of operation by external key cylinder with Night Latch or Hold Back settings. The device shall be capable of disengagement by single point, quarter turn dogging.

# 3100 Series

## Recessed Mounted 3100

Available for doors widths from 30" to 48", narrow through wide stile and in standard anodized finishes.

The sleek 4-1/2" high push bar projects a slim 1-1/2" from the door face and conceals a rugged duty ANSI Grade 1 (500,000 cycle) operating mechanism.

UL listed and available with cast aluminum exterior trim field settable for Night Latch and Hold Back functions, these devices are accented with metal end caps in a durable black finish.

## Series 3100 CVR Device Specification

Exit Device shall be First Choice Building Products series 3100 Concealed Vertical Rod Narrow Stile model utilizing a low profile touch bar projecting less than one and one half inches (1-1/2") from the face of the door. The device shall use 3/8" steel vertical rods operating hardened steel latch bolts with the top latch engaging a stainless steel, top jamb mounted strike with rotational adjustment for proper door alignment. The bottom latch will be spring powered to ensure engagement with the threshold. The device push bar and base shall be 6063, T-6 hardened aluminum in anodized finishes. The device shall be capable of operation by external key cylinder with Night Latch or Hold Back settings. The device shall be capable of disengagement by single point, quarter turn dogging.

# 3000IS Series Customize...Your Door Hardware

## Series 3000IS Exit Device

Integrate communication into your entrances. Customize your door hardware with decorative, informational, or promotional images. With the new Series 3000IS exit devices you'll be taking advantage of points of high visibility and traffic to reinforce your marketing message or to enhance the surrounding decor.

Your message will be clearly displayed on high quality graphic inserts made from durable, easily maintained material fitted into the anodized aluminum push bar.

- Easily identify openings or the user's location in your facility
- Announce to customers your hours of operation
- Express your gratitude for their business
- Direct them to another sales opportunity

Contact us for display sizes and requirements.

An extension of the ANSI Grade 1, UL Listed Series 3000IS is made with the same durable materials to provide years of trouble free operation. These devices are available in both concealed vertical rod and rim latching models and with a wide variety of accessories including removable mullions and alarm kits.
